

Sheridan Memorial Hospital Foundation

2011 Sheridan College Nursing Scholarship Students

It has been my dream to become a nurse since I was a teenager. Receiving *The Foundation* nursing scholarship has given me the exciting opportunity to fulfill this dream.

Along with being a wife, I am a mother of four children. Going to school full time in the nursing program at Sheridan College has been challenging at times, but it has also been very rewarding. After completing my first year in the nursing program I became an LPN and worked full time at the hospital in the summer of 2010. This was a tremendous learning opportunity for me! And I really enjoyed being part of the nursing team in med/surg.

Upon graduating from nursing school and receiving my RN, I look forward to coming to work full time. Again, I'm grateful to *The Foundation* for the opportunity afforded to me.
