

Sheridan Memorial Hospital Accolades

5-Star Rated (2021, 2022)

The Overall Hospital Quality Star rating by the Centers of Medicare and Medicaid Services (CMS) summarizes a variety of measures across seven quality categories into a single star rating. The ratings demonstrate how well a hospital performed, on average, compared to other hospitals in the U.S. The rating ranges from one to five stars.

We are excited to announce that the Centers for Medicare and Medicaid Services (CMS) has recognized Sheridan Memorial Hospital (SMH) with an Overall 5-Star Rating for the second year in a row. This recognition is a result of our physicians and staff showing up every day focused on kind, compassionate and skillful care of our patients. This rating is at a level that only 13.73% of hospitals across the country have attained for 2022 and makes SMH one of only two hospitals in Wyoming to earn a 5-Star designation.

The Star Rating Program is just one of many CMS initiatives designed to improve the quality of healthcare available across the U.S.

Joint Commission Accredited (Since 2003)

As a way of gaining community trust and accountability, SMH continues to earn the Joint Commission's Gold Seal of Approval for accreditation by voluntarily demonstrating compliance with national standards for healthcare quality and safety every year. The accreditation award recognizes our dedication to continuously comply with The Joint Commission's rigorous standards and demonstrates our commitment to excellence for our patients and community.

Top 100 Rural & Community Hospital (2016, 2017, 2018, 2019, 2020, 2021, 2022)

For the seventh year in a row, SMH has been named to the Top 100 Rural and Community Hospital list. Approximately 880 hospitals are reviewed for this honor. The review process takes into account 37 independent indicators across multiple pillars of performance including: Inpatient Market Share, Outpatient Market Share, Quality, Outcomes, Patient Perspective, Cost, Charges and Finance. All data used to perform this review is publicly available via the Centers for Medicare and Medicaid Services (CMS) website.

American College of Cardiology Accredited (2020)

Sheridan Memorial Hospital is proud to announce that the American College of Cardiology (ACC) has awarded SMH the Heart Failure Accreditation based on the hospital's competence and specific standards that are in place to provide excellent care to patients with heart failure. The mission of the ACC is to transform cardiovascular care and to improve heart health.

The 3-year accreditation is awarded after a rigorous yearlong review and onsite visit by the ACC in which they evaluate 73 mandatory components that focus on the hospital's policies, standards, protocols, and education related to heart failure.

Hospice Honors (2015, 2016, 2019, 2021, 2022)

SMH Hospice was named a Hospice HONORS recipient in 2015, 2016, 2019, 2021 and 2022 by Deyta Analytics, a division of HEALTHCAREfirst. This award recognizes hospice programs providing the highest level of quality as measured from the caregiver's point of view. The award is based on survey results from the Hospice section of HCAHPS (Hospital Consumer Assessment of Healthcare Providers and Systems) survey. Hospice HONORS recipients scored above average on twenty of the evaluated questions, including "willingness to recommend."

Area Trauma Hospital Designation (Since 2001)

Sheridan Memorial Hospital has maintained this designation from the Wyoming Department of Health's State Trauma Program since 2001. Pursuing the designation is voluntary and requires the hospital to undergo an extensive onsite review every three years. The hospital meets stringent requirements and follows the recommended systems of trauma care, including having a systematic, organized and multidisciplinary team approach to medical care.

Pediatric Receiving Facility Designation (2022)

Sheridan Memorial Hospital has been recognized as a Level I Pediatric Receiving Facility by the Wyoming Department of Health's Emergency Medical Services for Children (EMSC) and Wyoming Hospital Preparedness programs. The Wyoming Pediatric Recognition Designation ensures services, equipment, disaster preparedness and staff competencies are in place in a facility that may treat an acutely injured or ill child in Wyoming.

VISION
When People Think of Excellent Healthcare,
They Think of Sheridan.

MISSION
To Serve our Community with Excellent
Patient-Centered Care.

CULTURE
In an environment of **TEAMWORK** ...
We will keep our patients **SAFE** ...
We will help them get **BETTER** ...
We will treat them with **RESPECT** ...
We will be **KIND** to them, and
We will continually **IMPROVE** our processes for excellent patient care.

The graphic features a large white heart shape on a dark purple background. The heart is stylized with a smaller heart inside it, creating a layered effect. The text is positioned to the right of the heart.
