

# Sheridan Memorial Hospital Awards

## 5-Star Rated (2021, 2022, 2023)

The Overall Hospital Quality Star rating by the Centers of Medicare and Medicaid Services (CMS) summarizes a variety of measures across seven quality categories into a single star rating. The ratings demonstrate how well a hospital performed, on average, compared to other hospitals in the U.S. The rating ranges from one to five stars.

We are excited to announce that the Centers for Medicare and Medicaid Services (CMS) has recognized Sheridan Memorial Hospital (SMH) with an Overall 5-Star Rating for the third year in a row. This recognition is a result of our physicians and staff showing up every day focused on kind, compassionate and skillful care of our patients. This rating is at a level that only 10.4% of hospitals across the country have attained for 2023 and makes SMH one of only two hospitals in Wyoming to earn a 5-Star designation.

The Star Rating Program is just one of many CMS initiatives designed to improve the quality of healthcare available across the U.S.

## Joint Commission Accredited (Since 2006)

As a way of gaining community trust and accountability, SMH continues to earn the Joint Commission's Gold Seal of Approval for accreditation by voluntarily demonstrating compliance with national standards for healthcare quality and safety every year. The accreditation award recognizes our dedication to continuously comply with The Joint Commission's rigorous standards and demonstrates our commitment to excellence for our patients and community.

## Top 100 Rural & Community Hospital (2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024)

For the ninth year in a row, SMH has been named to the Top 100 Rural and Community Hospital list. Approximately 880 hospitals are reviewed for this honor. The review process takes into account 37 independent indicators across multiple pillars of performance including: Inpatient Market Share, Outpatient Market Share, Quality, Outcomes, Patient Perspective, Cost, Charges and Finance. All data used to perform this review is publicly available via the Centers for Medicare and Medicaid Services (CMS) website.

## American College of Cardiology Accredited (2020, 2022)

Sheridan Memorial Hospital is proud to announce that the American College of Cardiology (ACC) has awarded SMH the Heart Failure Accreditation based on the hospital's competence and specific standards that are in place to provide excellent care to patients with heart failure. The mission of the ACC is to transform cardiovascular care and to improve heart health.

The 3-year accreditation is awarded after a rigorous yearlong review and onsite visit by the ACC in which they evaluate 73 mandatory components that focus on the hospital's policies, standards, protocols, and education related to heart failure.
