Important information – please read

Your protection is our priority. Financial fraud is an ever-increasing risk in today's world. Financial services firms, including D.A. Davidson, have processes in place to help prevent fraudulent activities in areas such as wires, debit card transactions, and checks. Please be sure to carefully review your monthly statements and any other documents promptly, to detect any unauthorized or irregular activity.

Investment and insurance products are not FDIC insured, are not bank guaranteed and may lose value.

About your statement - Statements are mailed monthly to clients who have transactions during the month that affect money balances and/or security positions. Statements are mailed quarterly to all other clients provided that the account contains a money or security balance. All positions, balances and activity are trade date based on this statement. Please review these statements carefully, and keep them for your records. If you note any discrepancies in your money balance, security positions, or activity in your account, please promptly report this to your Financial Professional or the Branch Office Manager for the branch where you maintain your account. To further protect your rights, including any rights under the Securities Investor Protection Act ("SIPA"), any verbal communications about inaccuracies or discrepancies in your account should be re-confirmed in writing. Your statement will be deemed correct unless we receive notice from you within 10 days of receipt. An explanation of your statement can be found on the D.A. Davidson website or upon request from your Financial Professional. If you have questions that are not adequately answered by these explanations, your Financial Professional will be happy to answer them for you.

Dadvantage available balance - Contact your Financial Professional for specific information regarding the Dadvantage program and eligibility.

Bank Insured Deposit Program (BIDP) - Funds held in banks are obligations of those banks and not of D.A. Davidson & Co. Funds held at the money market fund are obligations of the Fund Company and not of D.A. Davidson & Co. Funds held at banks in the BIDP are eligible for insurance to applicable limits by the Federal Deposit Insurance Corporation (FDIC) provided that any additional funds above such deposit limits will be deposited in an account at a designated money market fund. BIDP account funds swept to banks are not protected by Securities Investor Protection Corporation (SIPC). Excess funds swept to a money market fund are subject to SIPC protection. More information about D.A. Davidson's BIDP and applicable limits may be obtained at www.dadavidson.com/bidp. Questions about the BIDP or your balances and account activity in the BIDP should be directed to your Financial Professional.

Estimated annual income and current estimated yield - Estimated annual income (EAI) information presented in Holdings details, when available, reflects the estimated amount you would earn on a security if your current position and its related income remained constant for a year. Current Estimated Yield (EAY), when available, reflects the current estimated annual income divided by the current market value of the security as of the statement closing date. EAI and EAY contain certain types of securities that could include a return of principal capital gains, in which case the EAI and EAY would be overstated. In addition, bond calls, maturities, reclassification of dividends, capital gains and return of capital may overstate or understate EAI or EAY. EAI and EAY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EAY reflects only the income generated by an investment and it does not reflect changes in the securities' price which may fluctuate. The information used to derive these estimates is obtained from third parties we consider reliable. Past performance is no guarantee of future results.

Research ratings - Ratings from Standard & Poor's and Moody's Financial Information Services may be displayed for certain securities listed on this statement. Ratings represent the opinions of the respective research providers, are subject to change, and should not be construed as representations or guaranties of performance. We obtained this information from third parties and therefore we cannot guarantee its accuracy. Please consult your Financial Professional for an interpretation of these ratings as they relate to your portfolio.

Security pricing - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on our statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. D.A. Davidson does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your Financial Professional. Values on Fixed Income securities are based on estimates obtained from various sources. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities or receive less if you sell smaller amounts of securities. Securities pricing less than .001 will reflect a price per share of "0.00", but will display a total market value. Securities pricing at N/A indicate D.A. Davidson is unable to find a price for this security as of this statement date.

Summary of gains and losses - Gain and loss information is provided for information purposes only and should not be used for tax preparation. Gain or loss summary information may change due to basis adjustments. Information, if presented, includes only the securities for which we have original cost information. If you know the original cost of securities not purchased at D.A. Davidson, but included in your statement, please contact your Financial Professional

Equity Dividend Reinvestment Program - By electing to reinvest equity dividend payments on eligible securities your shares will be purchased using the executed market price on payable date. For any fractional only position liquidations either the last market close price or the market open price on trade date will be used. This activity can be seen on your Account Statement.

Margin accounts - This is a combined statement of your Margin Account of a special memorandum account maintained for you under Section 4(F)(6) of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the separate account as required by Regulation T is available for your inspection upon request. If you have sold securities which you do not own under the Short Sale rule, we have, in accordance with regulations, segregated the proceeds from such transactions into your Short Sale Account. Any market increases and/or decreases will be transferred to your Margin Account weekly. These entries will be identified as "Mark to the Market" postings in the "Activity Detail" section of your statement. The Daily closing price is used in determining any appreciation or depreciation of the securities sold short. The rate of interest charged to your Margin Account is determined by the cost of borrowing money and the amount of the debit balance. The rate will change without notice as the cost of borrowing money is increased or decreased. In computing interest, all Cash and Margin Accounts are netted, with the exception of the Short Account and Dividend & Interest credits that are pending disbursement, so that the charge is made on the net daily balance.

Davidson SmartCreditSM borrowing power - Borrowing power is estimated as fifty percent of marginable securities in your investment account. Please contact your Financial Professional for applicable interest rates and loan eligibility

Option Clients - Information with respect to commissions and other charges related to the execution of listed option transactions has been included in the confirmations of such transactions previously furnished by D.A. Davidson & Co. A summary of this information will be promptly furnished upon your request.

Other information - If you have elected to receive interest on Free Credit Balances reflected as "cash" in your account, please be advised that under federal securities laws, the firm is permitted to pay such interest only on balances arising as an incidence of securities trading activities. Customer Free Credit Balances may be used in this firm's business subject to the limitations of 17 CFR Section 240.15c3.3 under the Securities Exchange Act of 1934. You have the right to demand and receive from us in the course of normal business operations the delivery of: a) Any Free Credit Balances to which you are entitled. b) Any Fully-Paid Securities to which you are entitled. c) Any securities purchased on margin upon full payment of any indebtedness to us. If you participate in one of our Money Market Funds or Bank Insured Deposit Program, collected money balances from the Securities Accounts are transferred daily to begin earning dividends or interest as soon as possible. You may also make direct deposits and write checks with these accounts. You have the right at any time to demand the liquidation of any Money Market Fund or Bank Insured Deposit Program and have the monies held as a free credit balance of cash within your account.

All securities held by D.A. Davidson & Co. for you, but which are not registered in your name, are commingled with identical securities being held for other clients. In the event any securities so held are "called" by the issuer, we will determine the beneficial ownership thereof by an impartial random selection system as required by Exchange rules.

Assets not held at D.A. Davidson & Co. may not be covered by the Securities Investor Protection Corporation (SIPC). They are reflected on this statement solely as a service to the customer.

A financial statement of this firm is available for your personal inspection at our office or a copy of it will be mailed upon your written request.

When disbursing funds to our clients, it is our policy to issue all payments on the bank of our choice, unless the client requiests otherwise

New Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis and classify the gain or loss as either long-term or short-term on the sale of covered securities acquired on or after January 1, 2011. These regulations also require that we make basis adjustments due to wash sales, certain corporate actions and transfer by gift or inheritance, which will be reflected on your form 1099-B. Cost basis is reflected on monthly statements for informational purposes only and should not be used in the preparation of your income tax returns. Cost information is presented as a general guide to portfolio performance. Please refer to the disclosures section of this statement for additional information. An "M" in the purchase date indicates a position is made up of multiple trades/tax lots.

Bank Insured Deposit Program (BIDP) - Funds held in banks are obligations of those banks and not of D.A. Davidson & Co. Funds held at the money market fund are obligations of the Fund Company and not of D.A. Davidson & Co. Funds held at banks in the BIDP are eligible for insurance to applicable limits by the Federal Deposit Insurance Corporation (FDIC) provided that any additional funds above such deposit limits will be deposited in an account at a designated money market fund. BIDP account funds swept to banks are not protected by Securities Investor Protection Corporation (SIPC). Excess funds swept to a money market fund are subject to SIPC protection. More information about D.A. Davidson's BIDP and applicable limits may be obtained at www.dadavidson.com/bidp. Questions about the BIDP or your balances and account activity in the BIDP should be directed to your Financial Professional.

Estimated annual income and current estimated yield - Estimated annual income (EAI) information presented in Holdings details, when available, reflects the estimated amount you would earn on a security if your current position and its related income remained constant for a year. Current Estimated Yield (EAY), when available, reflects the current estimated annual income divided by the current market value of the security as of the statement closing date. EAI and EAY contain certain types of securities that could include a return of principal capital gains, in which case the EAI and EAY would be overstated. In addition, bond calls, maturities, reclassification of dividends, capital gains and return of capital may overstate or understate EAI or EAY. EAI and EAY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EAY reflects only the income generated by an investment and it does not reflect changes in the securities' price which may fluctuate. The information used to derive these estimates is obtained from third parties we consider reliable. Past performance is no guarantee of future results.

Research ratings - Ratings from Standard & Poor's and Moody's Financial Information Services may be displayed for certain securities listed on this statement. Ratings represent the opinions of the respective research providers, are subject to change, and should not be construed as representations or guaranties of performance. We obtained this information from third parties and therefore we cannot guarantee its accuracy. Please consult your Financial Professional for an interpretation of these ratings as they relate to your portfolio.

Security pricing - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on our statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. D.A. Davidson does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your Financial Professional. Values on Fixed Income securities are based on estimates obtained from various sources. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities or receive less if you sell smaller amounts of securities. Securities pricing less than .001 will reflect a price per share of "0.00", but will display a total market value. Securities pricing at N/A indicate D.A. Davidson is unable to find a price for this security as of this statement date.

Summary of gains and losses - Gain and loss information is provided for information purposes only and should not be used for tax preparation. Gain or loss summary information may change due to basis adjustments. Information, if presented, includes only the securities for which we have original cost information. If you know the original cost of securities not purchased at D.A. Davidson, but included in your statement, please contact your Financial Professional

Equity Dividend Reinvestment Program - By electing to reinvest equity dividend payments on eligible securities your shares will be purchased using the executed market price on payable date. For any fractional only position liquidations either the last market close price or the market open price on trade date will be used. This activity can be seen on your Account Statement.

Margin accounts - This is a combined statement of your Margin Account of a special memorandum account maintained for you under Section 4(F)(6) of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the separate account as required by Regulation T is available for your inspection upon request. If you have sold securities which you do not own under the Short Sale rule, we have, in accordance with regulations, segregated the proceeds from such transactions into your Short Sale Account. Any market increases and/or decreases will be transferred to your Margin Account weekly. These entries will be identified as "Mark to the Market" postings in the "Activity Detail" section of your statement. The Daily closing price is used in determining any appreciation or depreciation of the securities sold short. The rate of interest charged to your Margin Account is determined by the cost of borrowing money and the amount of the debit balance. The rate will change without notice as the cost of borrowing money is increased or decreased. In computing interest, all Cash and Margin Accounts are netted, with the exception of the Short Account and Dividend & Interest credits that are pending disbursement, so that the charge is made on the net daily balance.

Davidson SmartCreditSM borrowing power - Borrowing power is estimated as fifty percent of marginable securities in your investment account. Please contact your Financial Professional for applicable interest rates and loan eligibility

You have the right to demand and receive from us in the course of normal business operations the delivery of: a) Any Free Credit Balances to which you are entitled. b) Any Fully-Paid Securities to which you are entitled. c) Any securities purchased on margin upon full payment of any indebtedness to us. This section reflects the impact of positions purchased/sold on a trade date basis, and will include positions purchased and omit positions sold in the current month. Please see the Pending Trades section for more information. The "Market Value" and "Unrealized Gain/(Loss)" figures shown are representative values as of the last business day of the statement period indicated, which may not reflect the value that could actually be obtained in the market. For more details on pricing, cost basis, estimated annual income and current estimated yield see the disclosures section of the statement.

New Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis and classify the gain or loss as either long-term or short-term on the sale of covered securities acquired on or after January 1, 2011. These regulations also require that we make basis adjustments due to wash sales, certain corporate actions and transfer by gift or inheritance, which will be reflected on your form 1099-B. Cost basis is reflected on monthly statements for informational purposes only and should not be used in the preparation of your income tax returns. Cost information is presented as a general guide to portfolio performance. Please refer to the disclosures section of this statement for additional information. An "M" in the purchase date indicates a position is made up of multiple trades/tax lots.

Your protection is our priority. Financial fraud is an ever-increasing risk in today's world. Financial services firms, including D.A. Davidson, have processes in place to help prevent fraudulent activities in areas such as wires, debit card transactions, and checks. Please be sure to carefully review your monthly statements and any other documents promptly, to detect any unauthorized or irregular activity.

Investment and insurance products are not FDIC insured, are not bank guaranteed and may lose value.

About your statement - Statements are mailed monthly to clients who have transactions during the month that affect money balances and/or security positions. Please review these statements carefully, and keep them for your records. To further protect your rights, including any rights under the Securities Investor Protection Act ("SIPA"), any verbal communications about inaccuracies or discrepancies in your account should be re-confirmed in writing. Your statement will be deemed correct unless we receive notice from you within 10 days of receipt. An explanation of your statement can be found on the D.A. Bank Insured Deposit Program (BIDP) - Funds held in banks are obligations of those banks and not of D.A. Davidson & Co. Funds held at the money market fund are obligations of the Fund Company and not of D.A. Davidson & Co. Funds held at banks in the BIDP are eligible for insurance to applicable limits by the Federal Deposit Insurance Corporation (FDIC) provided that any additional funds above such deposit limits will be deposited in an account at a designated money market fund. BIDP account funds swept to banks are not protected by Securities Investor Protection Corporation (SIPC). Excess funds swept to a money market fund are subject to SIPC protection. More information about D.A. Davidson's BIDP and applicable limits may be obtained at www.dadavidson.com/bidp. Questions about the BIDP or your balances and account activity in the BIDP should be directed to your Financial Professional.

Estimated annual income and current estimated yield - Estimated annual income (EAI) information presented in Holdings details, when available, reflects the estimated amount you would earn on a security if your current position and its related income remained constant for a year. Current Estimated Yield (EAY), when available, reflects the current estimated annual income divided by the current market value of the security as of the statement closing date. EAI and EAY contain certain types of securities that could include a return of principal capital gains, in which case the EAI and EAY would be overstated. In addition, bond calls, maturities, reclassification of dividends, capital gains and return of capital may overstate or understate EAI or EAY. EAI and EAY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EAY reflects only the income generated by an investment and it does not reflect changes in the securities' price which may fluctuate. The information used to derive these estimates is obtained from third parties we consider reliable. Past performance is no guarantee of future results.

Research ratings - Ratings from Standard & Poor's and Moody's Financial Information Services may be displayed for certain securities listed on this statement. Ratings represent the opinions of the respective research providers, are subject to change, and should not be construed as representations or guaranties of performance. We obtained this information from third parties and therefore we cannot guarantee its accuracy. Please consult your Financial Professional for an interpretation of these ratings as they relate to your portfolio.

Security pricing - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on our statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. D.A. Davidson does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your Financial Professional. Values on Fixed Income securities are based on estimates obtained from various sources. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities or receive less if you sell smaller amounts of securities. Equity Dividend Reinvestment Program - By electing to reinvest equity dividend payments on eligible securities your shares will be purchased using the executed market price on payable date. For any fractional only position liquidations either the last market close price or the market open price on trade date will be used. This activity can be seen on your Account Statement.

Margin accounts - This is a combined statement of your Margin Account of a special memorandum account maintained for you under Section 4(F)(6) of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the separate account as required by Regulation T is available for your inspection upon request. If you have sold securities which you do not own under the Short Sale rule, we have, in accordance with regulations, segregated the proceeds from such transactions into your Short Sale Account. Any market increases and/or decreases will be transferred to your Margin Account weekly. These entries will be identified as "Mark to the Market" postings in the "Activity Detail" section of your statement. The Daily closing price is used in determining any appreciation or depreciation of the securities sold short. The rate of interest charged to your Margin Account is determined by the cost of borrowing money and the amount of the debit balance. The rate will change without notice as the cost of borrowing money is increased or decreased. In computing interest, all Cash and Margin Accounts are netted, with the exception of the Short Account and Dividend & Interest credits that are pending disbursement, so that the charge is made on the net daily balance.

Davidson SmartCreditSM borrowing power - Borrowing power is estimated as fifty percent of marginable securities in your investment account. Please contact your Financial Professional for applicable interest rates and loan eligibility

Other information - If you have elected to receive interest on Free Credit Balances reflected as "cash" in your account, please be advised that under federal securities laws, the firm is permitted to pay such interest only on balances arising as an incidence of securities trading activities. Customer Free Credit Balances may be used in this firm's business subject to the limitations of 17 CFR Section 240.15c3.3 under the Securities Exchange Act of 1934. You have the right to demand and receive from us in the course of normal business operations the delivery of: a) Any Free Credit Balances to which you are entitled. b) Any Fully-Paid Securities to which you are entitled. c) Any securities purchased on margin upon full payment of any indebtedness to us. Your protection is our priority. Financial fraud is an ever-increasing risk in today's world. Financial services firms, including D.A. Please be sure to carefully review your monthly statements and any other documents promptly, to detect any unauthorized or irregular activity.

Estimated annual income and current estimated yield - Estimated annual income (EAI) information presented in Holdings details, when available, reflects the estimated amount you would earn on a security if your current position and its related income remained constant for a year. Current Estimated Yield (EAY), when available, reflects the current estimated annual income divided by the current market value of the security as of the statement closing date. EAI and EAY contain certain types of securities that could include a return of principal capital gains, in which case the EAI and EAY would be overstated. In addition, bond calls, maturities, reclassification of dividends, capital gains and return of capital may overstate or understate EAI or EAY. EAI and EAY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EAY reflects only the income generated by an investment and it does not reflect changes in the securities' price which may fluctuate. The information used to derive these estimates is obtained from third parties we consider reliable. Past performance is no guarantee of future results.

Research ratings - Ratings from Standard & Poor's and Moody's Financial Information Services may be displayed for certain securities listed on this statement. Ratings represent the opinions of the respective research providers, are subject to change, and should not be construed as representations or guaranties of performance. We obtained this information from third parties and therefore we cannot guarantee its accuracy. Please consult your Financial Professional for an interpretation of these ratings as they relate to your portfolio.

Security pricing - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on our statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. D.A. Davidson does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your Financial Professional. Values on Fixed Income securities are based on estimates obtained from various sources. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities or receive less if you sell smaller amounts of securities. Securities pricing less than .001 will reflect a price per share of "0.00", but will display a total market value. Securities pricing at N/A indicate D.A. Davidson is unable to find a price for this security as of this statement date.

IMPORTANT TAX INFORMATION

"Return of Capital" (ROC) distributions are reported on a Form 1099-DIV and provided by our tax vendors. These forms must be mailed to all clients by February 18, 2025. First Interstate Wealth Management secured a 30-day extension on this deadline; as such, all required forms will be provided to clients by March 17, 2025.

The extension gives us the opportunity to work with outside vendors throughout the month of February to identify all investments that received ROC distributions during the year, allowing for account and cost basis adjustments.

What is "Return of Capital"?

ROC is a non-dividend distribution, or a payment from a security to an investor from funds that were not derived from income. Throughout the year, dividends are posted to your account as income. At year-end, the fund company classifies certain dividends as ROC, which requires adjustments to affected accounts. The received ROC distribution reduces the investor's adjusted-cost basis and is not taxed as income for the current year. Once the fund's adjusted-cost basis has been reduced to zero, any subsequent return will be taxable as a capital gain.

IMPORTANT TAX INFORMATION

"Return of Capital" (ROC) distributions are reported on a Form 1099-DIV and provided by our tax vendors. These forms must be mailed to all clients by February 18, 2025. First Interstate Wealth Management secured a 30-day extension on this deadline; as such, all required forms will be provided to clients by March 17, 2025.

The extension gives us the opportunity to work with outside vendors throughout the month of February to identify all investments that received ROC distributions during the year, allowing for account and cost basis adjustments.

What is "Return of Capital"?

ROC is a non-dividend distribution, or a payment from a security to an investor from funds that were not derived from income. Throughout the year, dividends are posted to your account as income. At year-end, the fund company classifies certain dividends as ROC, which requires adjustments to affected accounts. The received ROC distribution reduces the investor's adjusted-cost basis and is not taxed as income for the current year. Once the fund's adjusted-cost basis has been reduced to zero, any subsequent return will be taxable as a capital gain.
