

# New Digital Billing Announcement

At **Sheridan Memorial Health**, we're dedicated to making healthcare easier and more convenient for our patients. That's why we're excited to introduce **Digital Billing**, an innovative paperless solution for managing your medical bills.

## What is Digital Billing?

Digital Billing means that you will no longer receive printed billing statements in the mail. Instead, you'll receive a text message and/or email notification when your billing statement is ready to view online. This paperless approach simplifies your payment process, improves security, and helps protect the environment.

### Benefits of Digital Billing:

- **Convenience:** Instantly access your billing statements online anytime, even when traveling or away from home.
- **Security:** Reduce the risk of lost, stolen, or misdirected mail with secure, online billing.
- **Sustainability:** Support environmentally friendly practices by reducing paper waste.
- **Efficiency:** Manage and pay your bills securely and effortlessly through our user-friendly online system.

### How to Opt Out:

We understand that some patients may prefer to continue receiving paper statements. If you wish to opt out of Digital Billing, follow these steps to update your preferences:

1. **Log in to your account** through our secure online billing portal.
2. **Navigate to Contact Settings** under your profile.
3. Toggle the **Paperless Billing option off** to resume receiving printed statements by mail.

Alternatively, you can contact our billing department at 307-672-1010 for direct assistance with your billing preferences.

---

For additional information about Digital Billing or help navigating your account, please contact **Sheridan Memorial Health** directly at 307-672-1010. With this innovative approach, we're committed to enhancing your billing experience through personalized and environmentally conscious solutions!
