Hobbies & Interests

I love to spend time with family and friends. At the time of writing this, my oldest daughter is 12 years old, my second daughter is 8, and my son is 6. My wife and I cherish the opportunity to homeschool our children. For leisure I enjoy spending as much time outdoors as possible. My hobbies include hiking, camping, canoeing, hunting, and fishing.

I also consider emergency and wilderness medicine passions and hobbies of mine, not just career goals.
