Dear Amy Ligocki and Sheridan Memorial Hospital Recruitment Team,

My name is Cadis Chase and I am writing to express my interest in Outpatient Internal Medicine opportunities with Sheridan Memorial Hospital. I am in my second year with the Billings Clinic Internal Medicine Residency Program (graduation date July of 2026) and my wife and I are finding ourselves starting to look for our forever home. As a Wyoming native with a deep appreciation for rural life, coupled with my current residency training at Billings Clinic, I am excited about the possibility of returning to the state where I grew up and contributing to the healthcare needs of the community I know and care about.

Having spent most of my life in Wyoming (I lived in Cheyenne for most of my childhood but lived in both Casper and Sheridan for short stints when I was younger, where my dad worked as a veterinarian in both communities) and having lived in Montana since high school. Growing up in both Wyoming and Montana, I developed a strong sense of resilience and a unique perspective and understanding of the patient populations in these regions, which will allow for closer connection and physician-patient trust. These qualities have shaped my approach to medicine, as I believe relationship-building and connecting with patients are vital to sustaining and improving health.

At Billings Clinic, I have sharpened my clinical skills in a variety of settings, including managing complex cases in both inpatient and outpatient environments and working in team settings to accomplish goals. I have had the opportunity to work with diverse patient populations, which has further solidified my passion for providing high-quality care in communities that often face healthcare access challenges. I am particularly interested in the opportunity to work at Sheridan Memorial Hospital, where I can combine my clinical expertise with my passion for serving patients in a community-focused, rural setting.

The extensive training provided during my residency, particularly in outpatient internal medicine practice, and my dedication to providing the highest level of care to my patients will make me an excellent asset to your already well-established team of providers. I am excited about my future career as an outpatient internal medicine physician. I look forward to further discussing the opportunities available with Sheridan Memorial Hospital and how I may contribute to the Sheridan community. I have attached my curriculum vitae for your review. Please reach out by phone or email if you have any questions or would like to discuss my experiences further.

Thank you for your time and consideration,

Cadis Chase
